

Services

T & D Tool Services is fully dedicated to the tungsten carbide and diamond industry. We specialize in carbide form tools, special ground inserts, and wear part applications. We have the capabilities of cutting and lapping diamond (PCD and CBN) inserts. Our in-house grinding facilities and EDM capabilities allow us to supply all of your carbide and diamond needs.

We have a full line of carbide blanks, rods, and strips for fabrication of your special tools. We stock in-house carbide end mills, drills, and inserts for immediate shipment from our stock.

T&D Tool Services, Inc.
Carbide & Diamond Tooling

Carbide

T & D Tool is a manufacturer and distributor for all your carbide tooling needs. If you need end mills, drills, reamers, inserts, work rest blades, shear blades or any other tools we can assist you.

We can also assist you with regrinding and recoating. We also offer a repair service for milling cutters, tool holders, indexable tooling.

PCD / CBN

T & D Tool Services has the in-house capabilities to offer per print PCD or CBN tipped tools. We can offer PCD or CBN tip inserts, end mills, porting tools and HSK shank tooling.

If your tools aren't crashed to the point of unreparable we can also re-tip the PCD or CBN and you will be up and running within 1 to 2 weeks. If your tools only have wear we can re-lap the PCD or CBN and offer a 2 to 3 day turnaround.
